

ASiAN Mission Statement

As representatives of the various Asian ethnic and national communities here at the Pennington School, All Students in Action Now (ASiAN) strives to foster relationships between its members and the greater Pennington School and Pennington communities. Through a balanced social, educational, and cultural agenda, we are committed to creating a unified voice that is necessary in order to create awareness of issues that affect the Asian ethnic and national communities. Our mission is twofold:

Asian Cultural Organizations

ASiAN is committed to the culture clubs that it comprises. We recognize that part of the task given to ASiAN is to serve the culture clubs by supporting their efforts and serving as a resource. Furthermore, to serve as the unifying voice for the Asian ethnic and national communities at the Pennington School, ASiAN is aware of the importance of creating and fostering strong relationships among the members of the cultural clubs. There must exist a mutual understanding of the support that is required in order to achieve this unity. Through its efforts, ASiAN hopes to be truly representative of the community that it represents.

The Pennington School and Pennington Communities

The ASiAN mission would not be complete without the participation and support of the Pennington School community. Recognizing this, we commit ourselves to reaching out to the diverse audience that makes up the Pennington School. We hope to promote dialogue and foster relationships through our various events. ASiAN strives not only to be active in the Pennington School community, but also in the Pennington community. Through the strengthening of ties with Asian alumni, collaboration in interscholastic events, and service in the community, ASiAN hopes to increase its presence in the Pennington community.

All Students in Action Now is an umbrella group of various cultural clubs that works toward educating the Pennington community about all things, such as customs, holidays, food, etc., relating to Asian cultures that are represented by the student body.
